Work experience

Vendo / front-end developer
MARCH 2022 – PRESENT, REMOTE

- Built, refactored and maintained an e-commerce website using **Next.js, React, TypeScript, TailwindCSS, Strapi.js**, and other technologies.
- Worked in a large team and communicated with clients to gather requirements and ensure project success.
- Implemented features such as a PDP, parts of the menu, and parts of PLP and many others.
- Utilized **Git** for version control and collaborated with team members on code reviews.
- Optimized website performance for better user experience.

AuraSide / full-stack web developer
APRIL 2020 – MARCH 2022, REMOTE

- Built frontend with **Next.js**, **TypeScript, and TailwindCSS,** among other technologies.
- Built backend with **Nest.js, TypeScript, PostgreSQL** and other technologies.
- Developed landing pages viewed by thousands of customers, as well as internal administrative tools.
- Handled deployments, backups, and server management.
- Multiple employee of the month awards.
- Worked closely with the design and product teams to implement new features and improve user experience.

Freelancing / full-stack web developer
APRIL 2020 – PRESENT, REMOTE

- Completed a few freelance projects after work hours and during the weekends for small clients or friends.
- Mainly utilized **Next.js, TailwindCSS, Nest.js, PostgreSQL**
- Communicated with clients to gather requirements, provide updates, and ensure project success.
